Hi all here are a few pictures from UKP classic car show

Hi all 14 cars from the club turned up for the Swale Classic Car Show, I haven't been for a few years and how big the show has grown, there must have been over 300 cars there. Weather was kind for us and there were many stalls cantering for all.

Project Victor

Hi Folks, its squirty Paint time.

Under side of the bonnet was a pig to prep (had previously been hand painted) but its ok now and fully primed.

Next job, off to Kent Car Panels, (Sandling, Maidstone) to get 4 litres of Cellulose Top Coat, plus thinners, filters and tack rags.

Paint duly mixed 50/50, spray gun set up, engine masked up and its squirty time, "Hooray"! Engine bay and bonnet now resplendent in Pine wood Green, quite pleased with the results, paint mix may need a tweak as will the spray gun, but for the engine bay and under bonnet, the results are fine.

Next task was the roof, paint mix and gun tweaks made a difference but our Village has been plagued with a fluffy down type substance in the air, at times it looks like it's snowing, It came from Poplar Trees at a Farm Close by, (Botanically called the Cottonwood tree) consequently the first coat on the roof looked terrible, also the gloss paint revealed a dent in the roof, in line with the "B" post on passenger side, so that had to be addressed.

Spraying was then suspended for most of June. Roof left for a couple of days then got to task with the DA sander and 1200 grit, roof now ready for paint again, depending on weather conditions. Smaller jobs carried out during the lull in the fluffy weather, was the door shuts and wing/door capping's.

22nd June: Air Quality and weather good; so spraying re-commenced, roof now in receipt of 4 coats of colour and it will be fine after a polish, wing and door capping's now in top coat and looking good.

That's about it for this Month folks, what with bad weather conditions and family commitments.

Hopefully the next installment of Project Victor will show some significant progress.
